

## REVOLT REPORTED IN CONSTANTINOPLE

Young Turks Said to Have Seized the City and Overthrown the Government

## NATION ANGERED AT SUBMISSION

Regard Balkan Terms as Humiliating and Revolution Is Probable Result

VIENNA, Jan. 23.—An official dispatch tonight said that a revolution has broken out in Constantinople. The Young Turks have seized the government, said the report, and the city is in their hands.

CONSTANTINOPLE, Jan. 23.—Kiamil Pasha, grand vizier of the Turkish empire today resigned his post. Before the meeting of the grand council of the empire, Kiamil advised the sublime porte that he could not hand over Adrianople, the holy city, to the Balkan allies and retain his portfolio. It was expected that the entire cabinet would resign.

Mahmed Shevket Pasha immediately was appointed grand vizier to succeed Kiamil Pasha and was given power to form a new cabinet in the event that the former grand vizier's colleagues followed his example. The resignation of Kiamil Pasha is regarded as only the beginning of a political revolution. It is known that the mass of the Ottoman people regard the proposed peace terms as humiliating and characterize as sheer cowardice the decision of the porte to hand over Adrianople and the Aegean islands.

It was semi-officially stated that Mahmud Shevket Pasha would establish a military dictatorship to forestall the revolution threatened by the soldiery on the Chatalja lines.

**Soldiers to Rebel**  
Today it was learned the soldiers on the Chatalja lines had taken oath that Adrianople should not be given up and that they would start a revolution should the porte attempt to meet the terms of the allies.

More than 300,000 Turkish soldiers from Asia Minor have invaded Turkey in Europe since the armistice was declared last December and should the soldiers carry out their agitation for a revolution the government would face a serious situation.

The resignation of the entire cabinet followed that of Kiamil Pasha and Talaat Bey was named minister of the interior immediately.

Talaat Bey, as soon as he assumed office, issued a public statement declaring that Adrianople would never be surrendered.

LONDON, Jan. 23.—Diplomats were in great humor today when Dr. Daneff, Bulgarian plenipotentiary, officially announced that an agreement had been reached between his country and Roumania.

This, following confirming despatches from Constantinople that the porte would yield to all of the demands of the allies, assured the absolute peace of all Europe.

Sir Edward Grey, secretary of state for foreign affairs, helped along the good feeling by announcing that he would reconvene the St. James Palace peace conference Monday afternoon.

**Roumania Gets Territory**  
Dr. Daneff stated that Roumania would receive a strip of territory in Silistria, on the Bulgarian-Roumanian frontier, as the price of her neutrality, and Bulgaria would at once dismantle her Silistrian forts.

St. Petersburg dispatches said that Russia would begin the demobilization of her military reservists and the Black sea fleet.

News of Turkey's decision to meet the conditions imposed by the powers, including the cession of Adrianople and the Aegean islands, reached diplomats here by telegraph from many sources, but it was said by Turkish and Balkan peace envoys today that nothing could be done in the way of peace negotiations until the porte's decision to surrender has reached London through official channels.

**To Allow No Indemnity**  
In an interview this afternoon, Dr. Daneff, the Bulgarian, made mention of "some delay while arranging the matter of an indemnity," but it was said that the ambassadors would keep a firm hand on further peace negotiations and would not allow the allies to extend their demands to include an indemnity.

A despatch from Vienna today said that Austria-Hungary government already was contemplating the demobilization of military reservists, who have been near the Serbian frontier for several months.

The reply of Turkey will allow the demobilization of the Balkan armies in the field and within a few days the Bulgarian, Greek, Montenegrin and Serbian troops before Adrianople, Janina, Scutari, and on the Chatalja lines will be ordered disbanded. Enough will be retained to keep order in the territory under discussion.

## GOVERNOR STOPS SON'S BOXING BOUT

SAN FRANCISCO, Jan. 23.—Archie Johnson, son of the governor of California, will not box six rounds tonight with Ernie Clark, of Los Angeles, amateur welterweight champion of the state.

The bout was cancelled today by officials of the Olympic club at the direct request of the governor.

When Governor Johnson discovered what a stir his son's bout was making throughout the state, he requested Archie to call the affair off. Archie declined, saying he could see nothing wrong about amateur boxing. The governor then brought pressure to bear on the directors of the Olympic club and the mill was cancelled.

Young Johnson is an attorney here, and is a boxer of considerable skill.

## RAIN HALTS FALL IN FLOOD ON OHIO

The Promise of Continued Downpour Brings Despair to Hundreds of Families

## APPEALS SWAMP RELIEF AGENTS

More Suffering Than Ever Is Seen and Small-Pox Scars the Refugees

EVANSVILLE, Ind., Jan. 23.—An all night rain halted the fall in the Ohio river today and promise of a continued downpour brought despair to the hundreds of families who have been driven out of their homes nearly two weeks. Where the Wabash river empties into the Ohio, near Shawneetown and along the entire length of the Wabash in Indiana and Illinois, the most serious flood conditions prevailed. Hopes that the worst was over, following the sunshine early this week, were not revived by the rain and lowering skies.

Appeals for help swamped the relief committees today. There seemed to be more suffering than ever. The steamer Hopkins went up the river today, with wood and fuel for Grand View and Enterprise.

Details from the small pox infected district around Ashburg were meagre, but indicated that the refugees there were breaking away from the quarantine in terror of small pox.

**WOULD CLOSE CHURCH SUNDAY**  
HARTFORD, Conn., Jan. 23.—That he favored "closing up all the churches in the country for a limited time as an experiment," is a statement made today by Prof. Willard C. Fisher, a Wesleyan university professor and former mayor of Middletown, in speaking for more liberal Sunday laws.

"I believe," he said, "in everybody having an uproariously good time on Sunday. Religion is not going to church. It is doing well by your fellow men."

## GERMAN AVIATOR KILLED

## APPROVE WISCONSIN BUILDING

WASHINGTON, Jan. 23.—The following public building appropriations were approved by the senate: Rhinelander, Wis., \$91,000; Mineral Point, Wis., \$60,000.

## HEARST MAN TELLS OF BUYING LETTERS

Former Editor of New York American Says He Was Astounded at Solon's Proposition

WASHINGTON, Jan. 23.—How he bought for \$500 photographs of part of the Standard Oil correspondence, which, he said, formed the first documentary proof of "treasonable transactions" by members of congress, was told to the Clapp investigating committee today by Mr. Charles P. J. Mooney, who in 1904 and 1905, was managing editor of the New York American.

"One letter which astounded me," he said, "was from a Pennsylvania congressman, asking a Standard Oil official whether he wanted to invest \$1,000 in a certain oil member. I had reported a free silver speech by this congressman in Memphis a few years before, in which Carnegie, Rockefeller and Standard Oil were vigorously assailed."

The reply of Turkey will allow the demobilization of the Balkan armies in the field and within a few days the Bulgarian, Greek, Montenegrin and Serbian troops before Adrianople, Janina, Scutari, and on the Chatalja lines will be ordered disbanded. Enough will be retained to keep order in the territory under discussion.

## BATTLING NELSON WEDS CARTOONIST

Former Lightweight Champion Married to Denver Woman in Hegewisch

## DANE IN THE ROLE OF LOCHINVAR

Carries Girl Off Her Feet and Patches Up the Broken Engagement

CHICAGO, Jan. 23.—Oscar "Batling" Nelson, erstwhile lightweight champion, and Miss Fay King, the Denver cartoonist, were married this afternoon with eclat and moving picture machines at Hegewisch, Ill., the village he put on the map. All Hegewisch was present at the ceremony and a half holiday was declared in its honor.

Nelson and his bride-to-be got in on a Rock Island train from the west, early in the morning. A reception committee of Hegewisch citizens and Chicago reporters was at the station to meet them.

**Buy Trousseau**  
Nelson and Miss King were driven in a taxicab to the Auditorium hotel, where a regal breakfast was served. Then they went on a shopping tour to get Miss King a trousseau.

"You see, Bat just carried me away by force of arms and I didn't even have time to bring any extra clothes along," she explained. Late in the morning the delegation, still accompanied by the moving picture men, went to Hegewisch, where the ceremony was performed by the Rev. Walton Larson, pastor of the church. Nelson's family has always attended.

Nelson, as a dashing Lochinvar as well as a prize fighter, was disclosed to the world today when Miss King told the story of her capture. It seems that last summer Nelson proposed to Miss King and was accepted. Then she exercised a woman's right and changed her mind. There was another man.

But no dallying weakling was Bat. He took the next train west and had some heart to heart conversations with Miss King. He did it so eloquently that she submitted to being "just carried off" and here she was today.

**Nelson Proud of Bride**  
Nelson's chest swelled with pride as his bride told the reporters all about his tempestuous wooing.

"Lochinvar? Well, hardly," he said. "You see we just decided to get married in a hurry and I had to over rule her wish for more time. Some bride, eh?"

## BOND COMMITTEE DELAYS DECISION

Speer Says Majority of the Bond Owners Favor Doherty Plan of Power Co. Reorganization

That the plan of reorganization of the La Crosse Water Power, the Winona Street Railway and La Crosse City Railway companies, submitted to the bondholders committee by the Henry L. Doherty company, of New York, has met with the approval of a large majority of the owners of Water Power company bonds is the information contained in a letter to the La Crosse bondholders from G. S. Speer, of Chicago, today. According to Mr. Speer's letter the owners of more than \$1,000,000 worth of the bonds have signified their preference for the Doherty plan over that proposed by Clement C. Smith, receiver of the Water Power company. The letter contains a list of telegrams from a large number of the bond owners expressing their approval of the Doherty plan. The La Crosse bond owners are among those in this list of telegrams.

It was announced last week that the bondholders committee would meet the early part of this week in Chicago to take decisive action toward the adoption of either the Doherty or the Smith plan but the meeting has been delayed and probably will not be held until next week.

## SNEED HELPER ACQUITTED

FORT WORTH, Texas, Jan. 23.—B. B. Epting, charged with complicity in the murder of Al Boyce in Amarillo, September 14, was acquitted by a jury here today, after a trial lasting two weeks. The verdict of acquittal is regarded as a forecast of the result of J. B. Sneed's trial for Boyce's murder which will take place soon.

## SEIZE IMPURE GRAIN

NEW YORK, Jan. 23.—Three carloads of barley bound from Minneapolis to Newport News, Va., for export, were in the hands of federal officials and more carloads were expected to be seized today. The grain, which is known as "feed barley," is said to be adulterated in violation of the pure food act.

## GOPHERS TO CATCH TAIL OF COMET

MINNEAPOLIS, Minn., Jan. 23.—When the comet "Westphal" switches her tail over Minneapolis, it was announced today, University of Minnesota astronomers will try to catch her by the tail, bottle her gases and sniff at the aromatic odors in her wake.

A row of bottles to catch the gases has been decided upon and the success of the experiment will depend upon the agility of the astronomers in driving home the corks.

But the reward promises to warrant the effort according to Prof. Leavenworth. Just think of the exulting pleasure of uncorking a quart of comet gas on state occasions or the satisfaction of knowing that Westphal's tail is held by the University of Minnesota.

## TOIL-BENT WOMAN ARGUES FOR VOTE

Sweatshop Worker in Depreciation of Suffragists Impresses Lloyd George

## WORKED FOR 75 CENTS A WEEK

Tells How She Tried to Support Sick Husband on Meager Pittance

LONDON, Jan. 23.—A clinching argument for votes for women today was delivered by Mrs. Mary Wood, a prematurely aged, toil-bent woman from one of the East End's unspeakable sweatshops, who told David Lloyd George, chancellor of the exchequer, that she worked in the place more than sixty hours weekly and received for her labor seventy-five cents for the six days.

On that, she said, she attempted to support herself and a sick husband, helpless—not from drink—but from tuberculosis, to which he fell victim while slaving by kerosene lamp-light in the same sweatshop. Her needle-scathed and misshapen hands trembling with the terrible earnestness that evidenced the truth of her pitiful recital, Mrs. Wood told the cabinet officer how hundreds of thousands of helpless women and girls were forced to work in the East End shops as she did, for less than a living pittance.

Lloyd George and members of the house of commons who were in the treasury office, were plainly impressed with the woman's story and some of the suffragettes who heard the recital were overcome with emotion.

Mrs. Wood was followed by other women, fish-mongers, shop girls, domestic servants, weavers, pit-workers and factory women, who told similar stories of life toll without life wages. They were among the delegation of suffragettes received by Lloyd George at the order of Premier Asquith to hear evidence in behalf of the woman's suffrage amendment to the franchise reform bill that will come up for debate and division in the commons tomorrow.

It is the crisis of the votes for women movement in England, and more excitement is promised in the commons tomorrow than on the occasion a week ago, when the Irish home rule bill was debated and passed by an overwhelming majority.

**SETTLES SUIT FOR FARE**  
MINNEAPOLIS, Minn., Jan. 23.—Dan Lally, for three years star out-fighter on the Minneapolis team, dismissed a \$100,000 alienation suit against Joseph Burkholder, a Minneapolis lumberman, in consideration of transportation to Milwaukee. Nearly two years ago, Lally, down and out, living at Salvation Army headquarters, agreed to settle the suit for car fare. Today he kept his bargain and a stipulation was filed dismissing the case.

**HALL WINS CASE**  
MADISON, Wis., Jan. 23.—Assemblyman Don C. Hall, republican, returned to the assembly today with the news that he won the case brought against him in the circuit court of Stevens Point for an alleged violation of the corrupt practices act. The case was brought by W. A. Watson, his democratic opponent in the primary.

## MAY INVESTIGATE GARMENT STRIKE

Congress May Be Asked by Berger to Probe New York Labor Trouble

## STRIKERS RECAST THEIR DEMANDS

Expected that Manufacturers Will Agree to New Scale Temporarily

WASHINGTON, Jan. 23.—A congressional inquiry into the condition which has led up to the great strike of the garment workers in New York may be determined upon within a few days, if information which Representative Victor Berger will receive tonight from the strike leaders is as important as he has been led to believe.

The information which Berger is seeking is regarding the reported "speeding up" of the labor of women and girls in the garment factories in order that they may be made to compete with the sweatshops in cheapness of production; exact evidence of the alleged unsanitary conditions under which workers are employed and the rate of pay which the women employees receive for their long hours of labor.

NEW YORK, Jan. 23.—Definite progress toward an amicable settlement of the garment workers' strike was seen today in the announcement from the headquarters of the United Garment Workers' union that a revised schedule of demands had been drawn up, following last night's meeting, and would be presented at another conference with a committee of manufacturers. It was expected that the manufacturers would agree to the demands temporarily and that the workers would return to the shops pending the arbitration of all their differences.

CHICAGO, Jan. 23.—Immediate strike of the garment workers seemed less likely today when union organizers heard that several firms had sent back goods they were finishing for New York firms. Plans for a strike are being made in detail, however. Union officials say they will be prepared to call out the workers at a moment's notice.

ROCHESTER, N. Y., Jan. 23.—Rochester faces a complete tieup of its clothing industry as a result of a vote for a general strike taken at the big mass meeting last night. The employees of Adler Brothers, several hundred strong, walked out in a body today and other plants will be tied up later.

## DEMSEY CHILDREN GO TO ORPHANAGE

Mother Unable to Care for Her Flock; Boy Ill with Typhoid Fever

Six children of Mrs. Ida Demsey, who were found in a poorly furnished house at 218 Vine street without food or heat, by Poor Commissioner Sol Burdick Monday, were today committed to the St. Francis orphanage by Judge John Brindley.

The mother had left the children in charge of a girl while she went to Viroqua. Before her return all the provisions, fuel and money had been disposed of and the children were in a destitute condition when found. The oldest child, age nine, is confined to the isolation hospital with typhoid fever. Their father died of cancer two weeks ago and the mother, who has since returned, has but little money with which to support them.

The Demsey family resided on a Vernon county farm until a few months ago, when they moved to La Crosse. Following the death of the father, the oldest child became ill and was removed to the hospital. The mother will keep the youngest child, who is but three months old. Five of the children, ranging in age from three to eight years, will be removed to the orphanage and the child now in the hospital will be taken to the orphanage if he recovers.

## RUSH FOR JOBS AS "LIQUOR TASTERS"

TORONTO, Ont., Jan. 23.—Rush of applicants is expected today at the office of the provincial secretary of Ontario for position as "liquor tasters" under the newly organized movement for governmental supervision of all the drinkables on sale at public bars and hotels. The extensive sale of inferior booze and the widespread practice of refilling bottles has aroused the men who have agreed to put it up to the government to see that only first class liquid refreshment is dispensed in this province.

The movement was hailed with joy by the bibulous, whose thirst suffered from watered stock and other tricks of the trade. The "tasters" will make daily rounds of the bars and investigate the character of liquor sold.

## FIFTY FISHERMEN ADRIFT ON FLOE

Half Population of Little Sturgeon, Wis., Near Death on Floating Ice

## ARE RESCUED AFTER FOUR HOURS

Last Four Men Thrown Into Icy Water as the Cake Breaks Up

LITTLE STURGEON, Wis., Jan. 23.—Prisoners for more than four hours on an ice floe, cut off from land by an everwidening gap of blue, icy water, fifty fishermen, half the population of this little fishing hamlet, narrowly escaped death when the huge cake of ice on which they were fishing broke off from the main floe and drifted slowly into Sturgeon bay late Wednesday afternoon.

The men, who were fishing through the ice, were unaware of their danger until they found themselves adrift.

The boats available were insufficient to save half the marooned fishermen, but as fast as they were brought in the younger men put back to the floe to rescue their well-nigh frozen companions.

Four men remained on the floe when night fell. Just before the rescuers reached the miniature berg on the last trip, the floe broke up and the castaways were precipitated into the icy waters. They were picked up by the rescuers.

## MUNSON-ANDERSON CASE COMES TO A SENSATIONAL END

District Attorney of Crawford County Awarded \$1 Damages for Alleged Defamation of Character

## SOME CHARGES SUBSTANTIATED

Anderson Did Not Deny Circulating Story of Malfeasance in Office

## TOOK CASE TO THE GOVERNOR

Declared Munson Connived with Friends to Aid Saloonkeeper to Escape

The celebrated Munson-Anderson libel case, which was brought here from Crawford county, came to a sensational end yesterday when the jury by special verdict awarded the district attorney of Crawford county \$1 damages for alleged defamation of character and substantiated practically all of the charges against the district attorney made by the Kickapoo valley farmer who was defendant in the case. The verdict was brought after one of the hardest legal battles ever staged in the La Crosse court.

The \$10,000 libel suit was the result of charges made against District Attorney N. R. Munson of Prairie du Chien, by Alick Anderson, farmer, to the effect that Munson was guilty of malfeasance in office. Anderson submitted the charges to Governor F. E. McGovern in writing with the request that they be investigated. A Munson removed from office. Governor McGovern forwarded the charges to Munson who brought the suit for libel.

**Conspiracy Alleged**  
The trouble arose over a suit brought by Anderson against his wife, Dora Anderson, and Charles Mitchell, a saloon keeper of Soldiers Grove. Anderson accused Mitchell and his wife of immoral relations and secured a divorce. He then took action against Mitchell on a serious charge. He alleged that he paid District Attorney Munson money to prosecute the case but that instead of prosecuting the saloon keeper Munson connived with Mitchell's friends to enable him to dispose of his property and escape to Canada. Anderson signed a written statement to this effect and circulated the paper the length and width of the Kickapoo valley, and sent a copy to the governor in an attempt to remove Munson from office. The circulation of the charges caused the biggest sensation that has stirred Crawford county in years.

**Change of Venue**  
Munson started suit for \$10,000 against Anderson, who asked a change of venue. The case was then brought to the circuit court in La Crosse county. Wolfe and Wolfe, the attorneys for Anderson, did not attempt to deny or disprove the circulation but bent their entire effort to the substantiation of the charges against the district attorney. Charles Schweizer of La Crosse was the attorney for Munson.

At the close of the argument by the attorneys in the case yesterday Judge E. C. Higbee submitted to the jury a list of questions containing the eleven different counts in the case. The questions and the jury's answers are given in the special verdict as follows:

## THE GOVERNOR'S MESSAGE

### The Settlement of Farm Lands

The settlement of unoccupied farm lands in the northern part of the state is a problem that has engaged the attention of the board of public affairs for more than a year. There are about 10,000,000 acres of such land, once in forest but now practically stripped of its timber. At the same time here and in other states are thousands of men who are fitted by training and natural aptitude to make good farmers but who have drifted into the cities and frequently into the ranks of the unemployed because they have been unable to find land at prices they could afford to pay. The problem then is how to bring idle men and idle lands together for the betterment of both. To do this certain fundamental needs must be met such as the necessity for guidance and protection in the selection of land, available capital and credit

to enable settlers to farm properly, suitable highways in new communities and sufficient publicity to bring accurate information with respect to these undeveloped resources of our state to those whom we wish to have settle within our borders. We should not only invite settlers to Wisconsin but should encourage and protect them in every way possible after they have come here in order that they may become successful farmers and independent, self-reliant citizens. Some administrative board therefore should be given authority to work in conjunction with the college of Agriculture in advising settlers as to farm management, the marketing of farm products and the purchase of farm supplies; in representing them in negotiations with the railroads and other public utilities, the department of Agriculture of the federal government, and all other agencies, public or private, that may render assistance to them; and it should investigate from time to time the progress and development of agriculture in the sparsely settled portions of the state.

The prime need of these new set-

tlers is capital. For the most part they are men of small means and the banks and other lending agencies about them are either unwilling or unfitted to supply them with necessary funds to enable them to farm their lands in a proper manner. The state should relieve this condition by encouraging the development of agricultural credit institutions, whether private or co-operative, especially organized for making long time loans to farmers on the security of their lands. Such banks have existed for many years in Germany, France and other European nations and have been found of incalculable value to the people of those countries. We should also consider whether the state may not itself enter this field directly by providing for the investment of some of its trust funds in farm mortgages. This is now being done in North Dakota, South Dakota, Iowa, Indiana, Oklahoma, Idaho, Utah and Oregon—to the extent of more than \$4,000,000 in several of the states named—and there seems to be no valid reason why it cannot safely be done in Wisconsin. At the present time the state loans each year about \$200,000 of its trust funds to school districts and local municipalities at three and one-half per cent interest. But municipalities can easily obtain money elsewhere by issuing bonds. If those that now borrow from the state could be induced to float their own loans, the portion of the trust funds thus released might be invested in farm mortgages approved by some responsible state board or if this be thought too hazardous, in the bonds of co-operative credit societies organized for the purpose of making long time loans on the security of farm mortgages. Then there is the state life insurance fund authorized by the last legislature. Why may it not be dealt with in a similar way? If a safe, workable plan along these lines can be devised, provision should be made for the repayment of these loans in annual or semi-annual installments on the amortization plan, extending over a period of twenty or thirty years, or even longer.

I submit these suggestions to you in the hope that some feasible method may be worked out whereby industrious, thrifty and honest farmers of small means, especially in the newer portions of the state, may in the future be better supplied with the money and credit they need for the development and improvement of their homes. It should not be ignored that the plan of loaning out the trust funds of the state on the security of farm mortgages was tried here over fifty years ago and failed miserably. But the failure appears to have been due rather to the corruption and bad management of those who then administered public affairs in Wisconsin than to any infirmity in the principle of such loans. Those were the days of the "forty thieves." The men who then recklessly loaned the trust funds of the state to their friends on the security of worthless mortgages also appear to have directly embezzled from the state treasury. From thievery and fraud such as this not even bolts and bars protect us always—to say nothing of wise legislation or its prudent administration. Nevertheless the first requirement of any plan of this sort is the absolute safety of the public funds.

**FARM TENANCY**  
Closely associated with the problems just mentioned is tenant farming. During the life of the present generation there has been a marked, almost an alarming, increase in farm tenancy in all the older states of the middle west. Hitherto it has been thought that Wisconsin was not affected by this tendency but there is reason now to believe that it has reached some of the older counties of the state. The last federal census shows that in fifteen counties in southern Wisconsin from twenty to thirty-four out of every hundred farms are operated by tenants or "renters" as they are called. The evil effects of a general system of tenant farming on the land, the tenant and the community in which he lives are too well known to need discussion. The problem is how to avoid them.

Undoubtedly one of the chief causes of an increase in the proportion of renters to proprietors among the farmers of the southern part of the state is the steadily increasing price of farm land. When the value of an average country home reaches \$10,000 or more it becomes exceedingly difficult for a hired man or renter of small means to buy a farm of his own on the terms customarily offered. Some system of long time loans should be developed to enable a capable farm laborer or renter to borrow the money he needs to establish himself as a farm owner. Co-operative land mortgage societies organized to lend money for long periods might help to solve the problem. The

system of state loans suggested for use in settling the wild lands of the northern part of the state might also be used to supplement co-operative credit. Whatever may be done we should not fail to recognize that the increase in the proportion of renters among the farmers of our state is a serious menace not only to the prosperity and welfare of our rural communities but also to the efficient use of the agricultural resources upon which we are all dependent for our food supplies.

## NOT TO CELEBRATE ST. PATRICK'S DAY

MILWAUKEE, Wis., Jan. 23.—There will be no celebration on St. Patrick's day this year for the fourth time since 1890 and the last time in the twentieth century.

Hibernians will be unable to celebrate the annual feast day of their native country, but will have to content themselves with the thought that this will be the last time they or their descendants will have to forego the hilarity which should be theirs on March 17.

It is all because the annual feast day comes on the second day of Holy week and Catholic church rules that all feasts shall be either postponed or canceled if they fall in the week before Easter.

## PULMOTOR SAVES AN AGED COUPLE

MILWAUKEE, Jan. 23.—Overcome by fumes of coal gas, an unidentified couple, each about 70 years of age, were discovered in the house at 561 Eighth avenue by the police yesterday morning at 11 o'clock.

When taken to the Emergency hospital, both were at the point of death, and physicians resorted to the pulmotor recently given to the hospital by the Milwaukee Gas Light company in an effort to save their lives.

Last night the condition of the couple was much improved, and physicians held out hope for recovery.

Pimples, blotches, skin eruptions of all kinds, are simply the impurities in the blood coming to the surface. All the external treatment in the world won't do a particle of good

Clean Your Back and Face of Pimples unless you purify the blood. And there's nothing so humiliating as a face that's all "broken out" and spotted.

Stuart's Calcium Wafers will clear the most obstinate complexion, because they go right into the blood and remove the cause of the trouble. The blood is cleansed of all impurities and foreign substances and these are quickly eliminated from the system. You'll notice a wonderful change in a few days—you will hardly know yourself in a week.

And Stuart's Calcium Wafers are absolutely harmless to any one. Their ingredients are just what a physician prescribes in most cases of skin eruptions and poor blood. These wafers are put up in a concentrated form, which makes them act quickly and thoroughly.

Begin taking Stuart's Calcium Wafers today and then look at yourself in the mirror in a few days, and find all those awful pimples, blackheads, acne, boils, liver spots, rash, eczema and that muddy complexion rapidly disappearing and your face cleared like the petal of a flower.

You can obtain Stuart's Calcium Wafers at any drug store at 50 cents and there is now no reason why anyone should be disgraced by pimples or any other skin eruptions.

## NEW COURSES FOR NORMAL STUDENTS

Increased Appropriations Enable Faculty to Add to Curriculum in Second Semester

The second semester of the normal school year, which opens next month, will see the addition of several new and interesting courses for prospective teachers. With increased appropriations providing for a larger faculty the new courses are possible and provide a much more complete system of training for the future pedagogues.

In the department of education Professor J. O. Engleman will offer a semester's study in school supervision and administration. The items taken up will include such important features as the relations between school board and teacher and the different systems of schools in the state.

Dr. Andersen of the department of psychology will offer a course in child study and adolescence which will give the student a comprehensive view of the phenomena of the change from childhood to adulthood and the methods of dealing with the different types of children.

In domestic science Miss Spence will start a class in advance cooking which will give the girls a larger insight into the intricacies of the culinary art. Twenty weeks of chemistry is a prerequisite for this course. Professor Lewis of the mathematics department intends to organize classes in analytical geometry and calculus provided sufficient students enroll.

## RUSHFORD MINN

Mr. and Mrs. Ed Hallihan of Baraboo have been recent guests of Mrs. Hallihan's parents, Dr. and Mrs. Eldred, and of Mr. Hallihan's mother, Mrs. Bessie Hallihan.

At the annual meeting of the Farmers' Elevator company held Jan. 14 the following were elected officers: President, Jacob C. Henze; vice president, O. P. Mindrum; secretary, G. Byholt; treasurer, J. G. Robertson; directors, A. Brand, C. H. Olstad; revisors, P. Highum, Carl Johns and S. T. Swenson.

Mr. Austinson was a business visitor at Whalen Saturday.

Mr. P. S. Lysford of Peterson has been the guest of friends here.

Mrs. Mary West of La Crosse has been the guest of her numerous friends and relatives here for several days.

Dr. Schjoll, V. S., who had been ailing for several days, died at his rooms here Monday morning.

Dr. L. K. Omsgard of Houston has been the guest of his brother, Dr. C. K. Omsgard of this city.

Lewis Skaar has been the guest of his son Carol, who is attending college at Northfield.

Mr. and Mrs. Henry Gabel of Milwaukee, N. D., are the happy parents of a little daughter. Mrs. Gabel was formerly Miss Della Layne of this city.

Mr. E. A. Lambert has been a La Crosse visitor recently.

Miss Selma Laugen has as a guest Miss Norman of La Crosse.

Messdames Krostad and Gundberg of Lanesboro have been the guests of friends here.

One of Rushford's young men became a benedict last week, the fortunate gentleman being Mr. Selmer Hoidal, his bride being Miss Olena Vitse of Choice. The marriage occurred last Wednesday at the home of the bride's parents, Rev. Saevig of Rushford officiating, and was witnessed by only immediate relatives. Miss Hilda Hoidal was bridesmaid and Iver Vitse groomsmen. Mrs. Vitse is a sister of Mrs. Harry Larson of this city and has many friends here. The young couple will reside upon the Hoidal farm in Brooklyn.

Dr. F. D. Evanson of Seabury Divinity school of Fairbault conducted services at Emmanuel Episcopal church last Sunday.

Rev. and Mrs. K. Maggleson and children, who have been the guests of relatives at La Crosse, have returned to Highland Prairie.

Mr. Cox, who underwent an operation for appendicitis a week ago last Sunday, returned home yesterday so fully recovered as to be able to resume his duties as instructor in our city schools by next week, we trust.

Mr. and Mrs. George James are rejoicing over the arrival of a young lady who arrived upon the stork special last week and who has announced her desire to make their home here also.

The Firemen's mask ball was well attended, about one hundred and ten tickets being sold. Miss Anna Wang received the prize for the prettiest dressed lady and Ernest Tostad won the gentlemen's prize.

Mrs. George Mars, who has been in the La Crosse hospital for several weeks, is slowly improving and her sister-in-law, who also submitted to an operation, is doing nicely.

A declamatory association of state high schools in southeastern Minnesota has been formed, with six or seven schools already enrolled and preparations are being made for a series of contests between the groups of schools. It is thought probable that Lanesboro, Houston and Rushford will be the contestants in one group. Eleven high school students of our city have already taken up the work for the preliminary contest which is divided into three classes, oratorical, dramatic and humorous.

In the final contest each school has a representative in each of these three classes. No professional "coaching"

## HEADACHY, CONSTIPATED, BILIOUS, TAKE DELICIOUS "SYRUP OF FIGS"

Removes the scum from the tongue, sweetens a sour, gassy, bilious stomach; cleanses your liver and 30 feet of bowels without gripe or nausea.

If headachy, bilious, dizzy, tongue coated, stomach sour and full of gas, you belch undigested food and feel sick and miserable, it means that your liver is choked with sour bile and your thirty feet of bowels are clogged with effete waste matter not properly carried off. Constipation is worse than most folks believe. It means that this waste matter in the thirty feet of bowels decays into poisons, gases and acids and that these poisons are then sucked into the blood through the very ducts which should suck only nourishment to sustain the body.

Most people dread physic. They think of castor oil, salts and cathartic pills. They shrink from the after effects—so they postpone the dose until they get sick; then they do this liver and bowel cleansing in a heroic way—they have a bowel wash-

day—that is all wrong. If you will take a teaspoonful of delicious Syrup of Figs tonight, you will never realize you have taken anything until morning, when all the poisonous matter, sour bile and clogged-up waste will be moved on and out of your system, thoroughly but gently—no gripping—no nausea—no weakness. Taking Syrup of Figs is a real pleasure. Don't think you are drugging yourself; it is composed entirely of luscious figs, senna and aromatics, and constant use can not cause injury.

Ask your druggist for "Syrup of Figs and Elixir of Senna," and look for the name, California Fig Syrup Company, on the label. This is the genuine—old reliable. Any other Fig Syrup offered as good should be refused with contempt. Don't be imposed upon.

## Don't Look Old Before Your Time

That backache, so common among women, brings with it the sunken chest, the headache, tired muscles, crow's-feet, and soon the youthful body is no more youthful in appearance—and all because of lack of attention.

There is no reason why you should be so unfortunate, when you have at your disposal a remedy such as Dr. Pierce's Favorite Prescription—recommended for over 40 years as a remedy for ailments peculiar to women. We have thousands upon thousands of testimonials on file—the accumulation of 40 years—testifying to its effectiveness. Neither narcotics nor alcohol are to be found in this famous prescription. Regulates irregularities. Corrects displacements. Overcomes painful periods. Tones up nerves. Brings about perfect health. Sold by dealers in medicines, in liquid or tablet form.

Dr. Pierce's Medical Adviser, newly revised up-to-date edition, answers hosts of delicate questions about which every woman, single or married ought to know.

**WOMAN'S** delicate system requires more than ordinary care and attention—more care and attention than it is given by the average woman.

Neglect it and it will soon creep in, and the look of old age, sometimes quickly, sometimes gradually follows.

Frank H. Burgess

Subscribed and sworn to before  
me this 2nd day of January, 1913.A. E. BLEEKMAN,  
Notary Public.PUBLICITY NOT THE  
METHOD OF WISDOMContemplation of activities of the  
department of justice in its "trust  
busting" cases is not always calculat-  
ed to convince one of the sincerity of  
that department. For instance, the  
case at present hanging fire regard-  
ing the alleged \$1,000,000.00 internal  
revenue frauds by the Armour,  
Moxley et al oleomargarine interests.In a recent issue the Chicago Trib-  
une printed a long story to the ef-  
fect that the government intended  
seeking indictments against the lead-  
ers of the alleged fraud and gave, in  
detail, information relative to the  
scheme operated by the men who  
have been evading the payment of  
small fortunes in internal revenues.  
This information must have come  
from the department of justice, and  
seems to furnish the prospective de-  
fendants with vital facts strongly  
suggesting a line of preparation for  
the defense. That the publication,  
in advance of grand jury proceed-  
ings, was to the advantage of the ac-  
cused is certain, and Attorney Gen-  
eral Wickersham will have difficulty  
in defending the announcement. In  
advance, of contemplated procedure  
against such organizations.  
It is not the practice of a police  
department to tell a criminal all theevidence against him and warn him  
of his impending arrest. No more  
should this be done in the trust  
cases.Of course the Armour-Moxley co-  
terie wouldn't stack a grand jury or  
anything like that, although history  
might produce a precedent. But it  
doesn't seem such a gigantic feat to  
learn who may be called as witness-  
es before the grand jury, and the  
fact that the prospective defendants  
have \$1,000,000 in their pockets  
which rightfully belongs to Uncle  
Sam may suggest at least vaguely  
about how far the gentlemen would  
go in a pinch.TAKES NAME OF CIVIL  
SERVICE IN VAINWe are not in the least inclined to  
defend any political activity in which  
Herman Ekern has indulged in viola-  
tion of the civil service laws, al-  
though it is to us a source of deep  
regret that the governor has depriv-  
ed this state of an insurance expert  
of national standing when a reprimand  
would have been sufficient to  
abate the practice. Nor does the  
course of the governor leave his in-  
tent open to conjecture. He delib-  
erately demanded that Mr. Ekern do  
that which he had neither the moral  
right nor the legal power to do, thus  
forcing the insurance commissioner  
into an attitude of apparent insub-  
ordination the inevitable and precon-  
ceived consequence of which was his  
elimination. No man who reads can  
doubt that the governor initiated the  
controversy with the deliberate pur-  
pose of relegating Mr. Ekern to the  
obscurity of private life.But to concede that, if he actually  
actively interested himself in Mr.  
Johnson's speakership campaign, Mr.  
Ekern was guilty of conduct deserv-  
ing executive discipline is not to ac-  
knowledge that Governor McGovern  
was in the right. It is mere assump-  
tion to say that had Mr. Ekern sup-  
ported a candidate satisfactory to the  
governor the latter would have found  
no fault with him, but so natural is  
the assumption that to evade it is  
difficult. The governor's political  
lieutenants were as busy on behalf of  
Mr. Nye as was any man in behalf of  
Mr. Johnson, and the political con-  
flict no doubt furnished the inspira-  
tion for what was ostensibly an ad-  
ministrative act on the part of the  
executive. To remove a political an-  
tagonist from office and replace him  
with a political ally, not upon con-  
siderations of public service, but in  
pursuit of political strategy, is the  
positive antithesis of the principles  
of civil service in the name of which  
the governor accomplished his coup.DEFECTIVE EYES AND  
MINDS AND MORALSThe effect of defective vision up-  
on the general mental and physical  
health of children, and upon their  
moral status also, is becoming a sub-  
ject of considerable interest. Re-  
cently the school authorities of New  
York City conducted a general exam-  
ination of forty children of the low-  
est grade of mental calibre. Twenty-  
nine of these children showed vari-  
ous stages of stupidity, and the re-  
maining eleven were delinquents. Ev-  
ery one of the forty had defective  
eyesight. We believe parents should  
watch the state of their children's  
eyes as carefully as their teeth; the  
eyes are as subject to defect, and even  
transcending the value of the eyes  
themselves is that general health and  
morality so apparently liable to suffer  
with the diseased eye.The only thing we hold up against  
the hen is that she has not advanced  
sufficiently to put an imprint of the  
day of laying on each egg. She  
wouldn't lie about it and men will.An Ohio girl who married for  
spite, now wants a divorce. Wouldn't  
it serve her right if the court, for  
spite, would refuse to give her a de-  
cree.Even though leap year is over it is  
expected that matrimony will not  
have to depend wholly on the efforts  
of the men for the next three years.Morgan has 179 associates in his  
business, but there is no indication  
that they are needed.A Frenchman says he can live on  
electricity. Current pie, perhaps.

## Nature and Necessity

Those who have ever hunted flats  
in New York know well that till a  
rental of \$5,000 or \$6,000 a year is  
reached flats are incredibly cramped.  
Indeed, in a good neighborhood  
even a \$5,000 flat is likely to be a  
tiny one.Discussing this phenomenon, Prof.  
Brander Matthews said at a lunch-  
con:  
"I remarked to a lady the other  
day:"Why, madam, your dog wags his  
tail up and down."  
"Yes," she replied, "he has to. We  
are comparatively poor, you see, and  
Fido was raised in a \$5,000 flat."Famous "Pint of Cough  
Syrup" ReceiptNo Better Remedy at Any Price.  
Fully Guaranteed.Make a plain syrup by mixing one  
pint of granulated sugar and 1/2 pint of  
warm water and stir for two minutes.  
Put 2 1/2 ounces of pure Pinex (fifty  
cents' worth) in a pint bottle, and fill it  
up with the Sugar Syrup. This gives  
you a family supply of the best cough  
syrup at a saving of \$2. It never spoils.  
Take a teaspoonful every one, two or  
three hours.The effectiveness of this simple remedy  
is surprising. It seems to take hold in-  
stantly, and will usually stop the most  
obstinate cough in 24 hours. It tones  
up the jaded appetite and is just laxa-  
tive enough to be helpful in a cough  
and has a pleasing taste. Also excellent  
for bronchial trouble, throat tickle, sore  
lungs and asthma, and an unequalled  
remedy for whooping cough and croup.This recipe for making cough remedy  
with Pinex and Sugar Syrup (or  
strained honey) is a prime favorite in  
thousands of homes in the United States  
and Canada. The plan has been imita-  
ted, though never successfully. If you  
try it, use only genuine Pinex, which is  
the most valuable concentrated com-  
pound of Norway white pine extract, and  
is rich in quassal and all the natural  
healing pine elements. Other prepara-  
tions will not work in this recipe.A guaranty of absolute satisfaction,  
or money promptly refunded, goes with  
this recipe. Your druggist has Pinex,  
or will get it for you. If not, send to

## The Critic

My father says the paper somehow  
ain't got up just right.  
He finds a lot of fault with it when  
he reads it at night.  
He says there ain't a gol' dum thing  
in it worth while to read,  
And that it doesn't print the kind  
of stuff the people need.He tosses it aside and says it's  
strictly "on the bum!"But you ought to hear him holler  
when the paper doesn't come.He reads about the wedding and he  
snorts like all git out.He reads the social doin's with a  
most derisive shout.He says they make the papers for  
the wimmen folks alone.He'll read about the parties and  
he'll fume and fret and groan;He says of information it does not  
contain a crumb.But you ought to hear him holler  
when the paper doesn't come.He's always first to grab it and he  
reads it plumb clear through.He doesn't miss an item or a want  
ad that is true.He says: "They don't know what we  
want, them durn newspaper  
guys;I'm goin' to take a day some time  
and go and put 'em wise.It sometimes seems as though they  
must be deaf and blind and  
dumb."But you ought to hear him holler  
when the paper doesn't come.

## A New Name for It

A lady living in Dorchester re-  
cently left her new Irish maid in  
charge of the house while she went  
shopping. Among her purchases was  
an umbrella stand for the vestibule.  
After her shopping tour she paid a  
visit to a friend and did not arrive  
home until late."Well, Mary," she said, "did my  
package come?""Yes, mum," was the reply. "The  
wagon com wid th' cuspidore for the  
umbrellies."—Boston Transcript.

## All the Difference

"What is the difference between  
valour and discretion?" remarked  
Mrs. Brown looking up from the pa-  
per in which she had been reading a  
leading article on the operation in  
Tripoli. "Valour," replied Brown,  
"is bawling into the ear of a cham-  
pion pugilist the assertion that he is  
a ruffian you could knock into fits."  
"And discretion?" "Is doing it over  
the telephone."

## A Demand for Real Music

In the assembly room of the na-  
tional press club in Washington, Re-  
presentative Barthold of Missouri and  
Representative "Nick" Longworth of  
Ohio were charming the evening  
with the sweet and mellow burden of  
music. Barthold, waving his German  
whiskers like a baton, caressed the  
piano on which he was accompany-  
ing the greatest political fiddler now  
extant, Nick, swaying from side to  
side the head which despises the con-  
cealment of hair, had delved deep  
into the treasury of classical tunes  
and was rapidly breaking every fin-  
ger in his attempts to make the thing  
go.Around the two performers stood  
a group of men who knew nothing  
about what was being played, but  
who wore expressions that looked  
like a cross between great admiration  
and infinite distress. That was  
some concert! Everybody understood  
this and remained profoundly silent.  
Just when the stillness was thick  
enough to spin into crape, Tom  
Monk, who writes for the papers,  
stuck his head through the door and  
in a raucous tone voiced this plebian  
request:"Nick, play 'Turkey in the  
Straw.'"—Popular Magazine.

## Bessie's Cup

"I wouldn't drink out of that cup,"  
said little Johnnie to the well-dress-  
ed young stranger; "that's Bessie's  
cup, and she's very particular who  
drinks out of it." "Ah," said the  
young man as he drank the cup dry.  
"I feel honored to drink out of Bes-  
sie's cup. Bessie is your younger  
sister, isn't she?" "Not much! Bes-  
sie is my dog!"THE  
MARRIAGE  
OF CAPTAIN  
KETTLEBy G. J. Ostell Hynes,  
Copyright The Bobbs-Merrill Co.Miss Dubbs looked out over the  
fertile valley. "A queen!" she mur-  
mured."That's the idea. But of course  
that doesn't interest you.""And why not?"  
"Because—well, because you are  
engaged, aren't you?""To whom, pray?"  
"Kettle—so I gathered."Miss Dubbs put back her shoul-  
ders, and showed the whole of her  
splendid height and figure."I'd scorn to deceive you, Mr.  
Bergash—or I should say, Saint. I  
was engaged to the captain once.  
But it was a mistake, both on his  
part and on mine, and it's over and  
done with. I wouldn't marry him  
now, no, not if he was to come down  
on his bended knees to me, no, nor  
even if he was to ask me on paper.  
If any lady's seen the foolishness of  
marriage, without a ring, it's me.  
That's straight. You can look upon  
me as an old maid, and glad of it.  
No, Mr. Saint, there's no marrying  
for yours truly.""I can imagine that being wife to  
a man who's away at sea nine-tenths  
of the time, and staying behind on  
a narrow income, would be an over-  
rated amusement.""It would be all right," snapped  
Miss Dubbs, "if the man was the  
right man.""Oh, I quite agree with you—as  
long as the novelty of it lasted. On-  
ly, don't you think that the old say-  
ing about romance is pretty true?""Which old saying?"  
"Why, that romance flies out of  
the window when there are not  
enough dollars on the hearth to keep  
it warm. Mark you, I'm only theor-  
izing, or, to be more accurate,  
quoting theory. For myself, I've al-  
ways been one of those very ordi-  
nary men who have never known  
what it is to be otherwise than well-  
off. I've always had more money  
than I knew how to spend, and more  
servants than I could keep amused,  
and more power than I really knew  
what to do with. Ever try power,  
Miss Dubbs? Ever occur to you that  
in my small kingdom up here I'm the  
most absolute monarch now?""Sign on earth? I've the high jus-  
tice, the middle, and the low. If I  
took the richest of my subjects this  
afternoon, or the poorest, and cut  
off his head, and put into my own  
hands the uttermost part of his pos-  
sessions, do you think anybody  
would object? Not a solitary man,  
woman or child of them. If tomor-  
row morning I called out every man  
among my subjects between the  
ages of sixteen and sixty, and led  
them against the sultan of Morocco  
—or, say against the Wangaroo  
—led them, if you like, to what  
they knew would be certain death,  
do you think there would be a  
question asked or an objection  
raised? Not one. Oh, I tell you  
there are no modern ideas of the  
people's rights among the Berbers  
of the Atlas. They are firmly im-  
bued with the idea that they merely  
remain alive for the earthly honor  
and the heavenly delight of serving  
a saint, and I haven't it in me to  
teach them anything different."

"You ought to be happy."

"I ought. I believe I should be  
if my father had not made that one  
fatal blunder of sending me to Eng-  
land for an education. It was good  
for the tribes; I admit that. But it  
has been hell for me. After I have  
seen English women like yourself,  
who are free, practically, as men;  
who ride, dance, play tennis, write  
books, ride to hounds, how could I  
marry a woman of my own people,  
who has been brought up behind a  
veil, and thinks it immoral to know  
how to read and write, or to have  
any idea of her own?""I must say I think the way your  
ladies tattoo the tops of their noses  
disgusting.""And if you like, there's that  
also. I couldn't sit down for the  
rest of life opposite a Mrs. Bergash  
with her family coat of arms tat-  
toed in wavy lines across her face."

"But your mother?"

"She is a pure-blooded Berber.  
My father was the exception to the  
rule. And, moreover, he loved her.  
As I do also.""I'm sure she's a very pleasant  
lady, though I must admit that she  
strikes me as foreign."The kaid laughed. "She would  
be about with her into other  
houses on the rock. Did she leave  
any doubt in your mind as to who  
was queen?""She did not!"—Miss Dubbs shiv-  
ered. "I don't speak Berber, of  
course, and I don't understand a lot  
that goes on, but I rather thought  
she ordered one lady we called on  
to be flogged.""I'm not supposed to know what  
goes on behind the curtain, and I  
won't admit of not knowing. But  
I'll admit, if you like, that it's quite  
possible. My mother prides herself  
on keeping up the old Berber tradi-  
tion, and, anyway, she's great on  
discipline. She's every inch a  
queen.""Well," said Miss Dubbs point-  
edly, "all I can say is you'd better  
not let your Miss Chesterton know. At  
the same time I'll trouble you not  
to scowl at me that way. You'll  
kindly remember that I'm a lady  
and intend to be treated as such."With an effort Sidi Mohammed  
Bergash did not beat the table. "I  
should have thought it might have  
occurred to you by this time I am  
not altogether a man to be fooled  
with. We will leave Miss Chesterton  
out of the conversation, if you  
please."THE  
FIRESIDE SERMON

By Lucius O. Clark, D. D.

Thursday, January twenty-third,  
1913.Charles Kingsley, Died January 23,  
1875.

I Chronicles, 23, 30.

"And to stand every morning to  
thank and praise the Lord."Charles Kingsley was the true  
Christian socialist. His message  
was as wholesome as the breath of  
Spring. How he interprets our text!"Thank God every morning when  
you get up that you have something  
to do that day which must be done,  
whether you like it or not. Being  
forced to work, and forced to do your  
best, will breed in you temperance  
and self-control, diligence andstrength of will, cheerfulness and  
content, and a hundred virtues which  
the idle never know."

## Only Five Words

In his speech the other night the  
postmaster general gave a very  
amusing illustration of the ingenuity  
shown in devising telegraphic codes.An archbishop, whom he did not  
name, sent home from abroad a cab-  
legram containing five words—  
"John Epistle, 12 and 14." The re-  
ceiver turned to the text and read—  
"I had many things to write; but I  
will not with ink and pen write un-  
to thee. But I trust I shall shortly  
see thee and we shall speak face to  
face."When a man begins to abuse his  
home town it's time for him to move  
out.If you entertain guests too well,  
you are apt to retain them.

## Health and Beauty Answers

BY MRS. MAE MARTYN

Cora S.: As your hair is short  
and thin and you have so much trou-  
ble to make it stay up and look neat,  
try shampooing it with a teaspoonful  
of canthrox dissolved in a cup of hot  
water. This shampoo is the one gen-  
erally used by the best hairdressers  
to make the hair look thicker and  
lustrous. It produces an abundant  
lather, dries quickly and not only  
cleans the hair and scalp well, but  
stops all irritation and gives the  
scalp a feeling of pleasing freshness.Canthrox makes a delightful sham-  
poo and will make your hair soft and  
fluffy. You will have little trouble  
then to make your hair look nice.Never use soap for shampooing, as it  
makes the hair brittle, harsh and  
takes away the glossy look. (a) To  
get rid of dandruff and stop falling  
hair, see reply to "Gertrude J."Meta D.: A delatone paste will re-  
move the fuzz from your lip without  
danger or inconvenience. Just mix  
enough powdered delatone and water  
to cover the hairy surface, apply and  
after two or three minutes rub off,  
then wash the skin carefully. One  
application of delatone usually suf-  
fices excepting where the growth is  
quite thick or stubborn.MADAM X.: Nature intended that  
all women should have voluptuous  
figures; and even though your bust  
is underdeveloped, with the famous  
vaucaire treatment you can soon have  
a figure that is well rounded and  
pleasing to look upon. You can pre-  
pare the vaucaire treatment right in  
your own home by dissolving 1 1/2  
cupfuls sugar in 1 pint water. To  
this add 1 ounce gallol and take of  
it 2 teaspoonfuls before meals. Keep  
up treatment until figure is properly  
developed.Mrs. L.: What a shame to have  
wasted so much money in vainly  
trying to get rid of your fat. I have  
a formula that some of my close  
friends have tried with marvelous  
success. Here it is: Dissolve four  
ounces of parnosin in 1 1/2 pints hot  
water; when cold strain and take a  
tablespoonful of the liquid before  
each meal. This remedy will not in-  
jure your health or force you to  
starve yourself in order to get back  
your comely figure. It cuts down fat  
rapidly, is not expensive and will  
surely help you.Mercedes: You say your complex-  
ion is lifeless and you are constantly  
tired and drowsy. This comes from  
too little exercise and an over-indul-Gertrude J.: The dandruff, itch-  
ing scalp and brittle, falling hair  
with split ends of which you com-  
plain come from a diseased scalp, due  
to the presence of germs. The sur-  
est way to get rid of these troubles  
quickly and remove the germs will be  
to shampoo twice a month with can-  
throx and rub into your scalp twice  
a week a quinine hair-tonic made by  
dissolving one ounce of quinzoin in  
half a pint of alcohol (not whisky)  
then adding half a pint of cold water.Use this tonic regularly and it will  
remove the dandruff and irritation,  
stop your hair from falling out and  
make it soft and glossy.S. D.: Yes—nothing is a more im-  
portant factor in a beautiful face  
than bright, clear, youthful eyes.  
You should use regularly a good eye-  
tonic. Get an ounce of crystos; dis-  
solve it in a pint of water and use  
two or three drops in each eye daily.  
It will clear and strengthen  
your eyes, remove all signs of weak-  
ness and inflammation and make  
them bright and sparkling. For weak,  
dull, expressionless eyes I think this  
tonic simply wonderful. It is very  
soothing and is fine for those who  
wear glasses.G. E. A.: When you wear a veil  
face powder will not help your com-  
plexion much, as it rubs off too easi-  
ly. What you need is a good lotion  
that will not show on the skin. The  
next time you go to the drug store  
get four ounces of spumax and dis-  
solve it in one-half pint of hot wa-  
ter of witch hazel, adding two tea-  
spoonfuls of glycerine. This lotion  
will clear up and whiten your skin,  
make it soft and velvety and give  
you a beautiful complexion. It will  
rid your skin of that shiny, greasy,  
sallow look and make it appear  
charming and youthful. I find this  
excellent for cold sores, freckles and  
pimples. It costs very little and will  
protect your face from the winds, and  
prove a splendid beautifier.Written on Faces---

He has appointed an efficient corps of assistants, among whom are Gen. W. W. Wotherspoon, Major Henry T. Allen, Col. H. C. Hodges, Col. E. St. John Greble and Lieut. J. C. H. Lee. A friendly rivalry exists between the suffragets, whose parade will be on March 3, and those in charge of the inaugural parade. The suffragets say their demonstration will be the most impressive.

### BARKER PROVES FORCEFUL TALKED

The special evangelistic mission now being conducted in the First Methodist church continues to grow in interest as well as power. Last night Evangelist Mr. Barker spoke on the words of the Master from John 6, 37, "Him that cometh unto me I will in no wise cast out." The address was clean and forceful and a plain way of presenting the truth. He does not resort to trickery, is not sensational, deals with men as with souls, as he said last night, "hit a man on the head and do not stop until you reach his heart." His illustrations are read from books but gleaned after years of experience, the church is coming to the front and railing to the aid of Dr. Oadams and the evangelist. The afternoon meetings are well attended. Mr. Barker will speak tomorrow afternoon at 3 o'clock on Sanctification. Members of other churches are attending the services, the public is also invited to come in and enjoy the hour. The song service is an important feature in the meetings, a large chorus choir led by Prof. Kerr.

If you think you need it and have the money, you need it.

## CITY DADS FORGET CARES AT BANQUET

Municipal Officials Have a Feast at Which Politics and Business Are Tabooed

### MAKE RAID ON POLICE STATION

Aldermen Play Part of Cops and Put Chief Webber Into One of His Own Cells

Politics and city business alike were forgotten at the banquet given for themselves by the city officials last night at the Northwestern hotel. All cares were put aside from the beginning, the first action of the assemblage being to place an official ban on "shop talk" of every kind.

With few exceptions every one of the city fathers was present at the feast. The banquet was entirely informal. There wasn't even a toastmaster, although City Attorney Schubert, as head of the committee on arrangements, called upon several of the "dads" for impromptu speeches. There were no set addresses. Everyone talked whenever the spirit moved him, on whatever subject was uppermost in his mind.

The musical side of the entertainment was not overlooked. Alderman Neumann, at the head of his justly famous Peerless quartet, dispensed delightful barbershop harmony at frequent intervals, with the banqueters coming in strong on the popular choruses. Alderman Neumann also sang a pleasing ditty of his own composition, which those officials who understand German, declared to be side-splitting. To cap the climax of the evening's music, Tax Commissioner Joe Frisch and City Comptroller Billy Fries put their heads together and sang a Bohemian song which was loudly applauded.

At intervals during the evening pseudo-telegrams were brought in for various officials, which, when read aloud, created great mirth. At one point in the evening's entertainment a terrific din and altercation was heard proceeding from the room adjoining the dining room. The merriment ceased suddenly and in the hush City Attorney Schubert announced: "That's the board of public works deciding how to lay a brick in a sewer."

Following the conclusion of the banquet the feasters descended in a body on the police station. Chief Webber, who was with them, was seized by Alderman Bartl and put through a third degree examination, while another alderman duly booked his answers, together with a description of the prisoner. The suspect was then incarcerated in the lockup, but managed to break jail later in the evening.

### LECTURE ON "NEW LITERARY DRAMA"

This is the second lecture of a series of three given by the Drama League of this city. The drama of the present day has been severely criticised and it is hoped that Prof. Dickinson will set his audience thinking correctly and wisely on this subject.

## The Effects of Opiates.

THAT INFANTS are peculiarly susceptible to opium and its various preparations, all of which are narcotic, is well known. Even in the smallest doses, if continued, these opiates cause changes in the functions and growth of the cells which are likely to become permanent, causing imbecility, mental perversion, a craving for alcohol or narcotics in later life. Nervous diseases, such as intractable nervous dyspepsia and lack of staying powers are a result of dosing with opiates or narcotics to keep children quiet in their infancy. The rule among physicians is that children should never receive opiates in the smallest doses for more than a day at a time, and only then if unavoidable.

The administration of Anodynes, Drops, Cordials, Soothing Syrup and other narcotics to children by any but a physician cannot be too strongly decried, and the druggist should not be a party to it. Children who are ill need the attention of a physician, and it is nothing less than a crime to dose them willfully with narcotics.

Castoria contains no narcotics if it bears the signature of Chas. H. Fletcher.

Genuine Castoria always bears the signature of *Chas. H. Fletcher*

## ST. PAUL SOCIETY STIRRED BY CASE

ST. PAUL, Minn., Jan. 23. — St. Paul society is sitting up and taking notice today over the news from New York that Mrs. James Cunningham Bishop, formerly Abigail Hancock of this city, is suing her millionaire husband for absolute divorce. She has named Mrs. J. Temple Gwathmey, another prominent society woman in connection with the legal action.

Mrs. Bishop is a sister of Mrs. W. R. Merriam, wife of the former governor of Minnesota, whose home on Capitol hill was at one time the headquarters of St. Paul society people.

## Why Women Are Beautiful

(Ella Ellis in The Arch)

"The best-groomed leaders of fashion have tabooed the use of powder. They rely upon a complexion beautifier, the secret of which is not common property. Massage the face, neck and arms with a solution made by dissolving four ounces of mayatone in a half pint of witch hazel. This will go wonders in making the skin smooth, fresh and satiny.

"The loveliest heads of hair are those which have had the least washing, for water dulls and deadens hair. Dry shampooing cleanses the scalp, and leaves the hair lustrous. Mix four ounces of orris root with an original package of therox, sprinkle a little on the head, brush out and your shampoo is completed.

"Wild hairs and fuzzy growths that cause many women humiliation can be painlessly removed by one application of delatone. Make a paste with a little delatone and water, apply and wash skin and the hairs are gone.

"Mother's Salve quickly heals sores, cuts and burns without leaving a scar. It is cooling, soothing and comforting, and gives almost instant relief. It is fine for the removal of certain forms of eczema, pimples and skin eruptions."

Once you have tasted the delicious out-like flavor of "Minnesota" Macaroni, you will want to eat it every day. There has never been any macaroni like it before—none so firm, so nutritious and so flavorful.

"Minnesota" Macaroni is one of the best and most nourishing foods known—yet it costs only about one cent a dish. Serve it at least twice a week in place of meat. You will save money and your family will enjoy better health.

"Minnesota" Macaroni is especially fine for children—it builds strong bodies and does not overload the stomach.

Try the handy "Minnesota" Cut Macaroni, which is cut into uniform pieces—it cooks more evenly and is quicker to prepare.—Advertisement.

## ASSEMBLY WINS FIGHT

QUESTION OF LENGTH OF ADJOURNMENT CAUSES A CLASH  
IN LEGISLATURE THIS MORNING

MADISON, Wis., Jan. 23.—The senate and the assembly this morning had their first clash and the assembly came out with flying colors. The two houses split over the question of adjournment. A joint resolution was introduced in the senate providing that at the close of today's session that the legislature adjourn until Monday evening at 7:30. In the assembly the joint resolution was amended so that after today's session, the legislature would adjourn until the usual hour, ten o'clock tomorrow morning. The amended joint resolution was messaged to the senate. Senator Randolph made a motion that the senate adjourn until tomorrow at ten o'clock, and the motion was adopted.

The joint rules under which the legislature shall work were adopted in the senate.

Norah Perkins Jeanson of Oshkosh, matron of the woman's rest room and hospital at the state fair, was the first "lobbyist" to register with the secretary of state. She declared she wished to suggest some changes in the management of the restroom to the solons.

## Rheumatism

A Home Cure Given by One Who Had It

In the spring of 1885 I was attacked by a severe and inflammatory Rheumatism. I suffered as only those who have it know, for over three years. I tried every remedy after remedy, and doctor after doctor, but such relief as I received was only temporary. Finally I found a remedy that cured me completely, and it has never returned. I have given it to a number who were severely afflicted and even bedridden with Rheumatism, and it effected a cure in every case. I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to try. If, after you have used it and it has proven itself to be that long-looked-for means of curing your Rheumatism, you may send the price of it, one dollar, but, understand, I do not want your money unless you are perfectly satisfied to send it. But if that fails, why suffer any longer when positive relief is thus offered you free? Don't delay. Write today.

## DAUGHTER OF ONLY

### NEGRO JUDGE WEDS

"Judge" Perkins Gives  
Bride to Campbell Farmer in Brindley's Office

## FILLS OUT BAPTISMAL BLANK

County Official Flustered  
at Ceremony Mistakes  
It for Wedding Certificate

"Judge" J. C. Perkins who bears the distinction of being the only negro who ever held a judicial position in La Crosse county, again jumped into prominence this morning when his daughter Esther Adeline Perkins, wedded Frank J. Kniefel, a farmer residing in the town of Campbell.

Arrayed in a "Prince Albert" coat with a large expanse of a snowy shirt bosom prominently displayed and cuffs and collar to match, "Judge" Perkins walked proudly into the office of Judge Brindley at the court house this morning with his daughter and friends following close behind. Here he announced the purpose of their visit and produced a marriage license dated January 2.

After ordering a hapless reporter from the room and dispersing curious onlookers with dignified condescension Judge Perkins gave his daughter's hand to the bridegroom and then dropped into the back-ground to watch the remainder of the wedding ceremony.

Get Wrong Certificate  
An incident which threatened to cloud the harmonious event occurred when Judge John Brindley flustered over the importance of his part in the ceremonies, filled out a baptismal certificate instead of a wedding certificate.

A look of surprise swept across the face of the bride, as she was tendered the offending certificate, which was rapidly surmounted by an unmistakable expression of anger. Judge Brindley, discovering his error, made humble apologies, then hurriedly retired to return a moment later with the proper document.

Following the wedding Judge Perkins was heard to mumble, "We get all the trouble of raising them, and then somebody else gets them," but a good natured smile which played about the corners of his mouth belied the feeling of disappointment which his words conveyed.

Justice of the Peace  
Mr. Perkins was elected justice of the peace of the town of Shelby several years ago when he defeated L. Kleeber by a few votes.

Mr. Perkins is a quadron but his daughter is an octoon. A sister of the bride acted as bridesmaid while her brother was best man. Both young ladies wore gowns of white.

## SHOW T.R. WAS FOOLED

FORMER PRESIDENT OF STEEL TRUST SAYS T. C. & I. COMPANY WAS NOT WORTHLESS AND INSOLVENT

NEW YORK, Jan. 23.—Testimony indicating that Theodore Roosevelt was misled as to the true status of the Tennessee Coal and Iron company at the time he gave his company by the purchase of that company by the steel corporation, was obtained today from William E. Corey, former president of the steel trust in the suit to dissolve the steel corporation.

Roosevelt had testified that he was convinced in 1907 by experts that the Tennessee company was practically worthless and that its purchase by the steel corporation was necessary to prevent a crash bringing disaster upon the country.

According to Corey's testimony today the T. C. & I. company was the largest manufacturer of the open hearth steel rails in the country and that its competition with the subsidiary companies of the steel corporation was one of the subjects discussed at a meeting of the Carnegie Steel company in 1907.

## DIES IN ATTEMPT TO SAVE DAUGHTER

CANFIELD, O., Jan. 23.—Curtis Shafer, 35, and his 14-year old daughter, Effie, were burned to death early today in a fire that destroyed Shafer's farm house north of here. Mrs. Shafer and a younger daughter, Evelyn, 12, were seriously burned and may not live. Willie, the 10-year old son, was burned while helping rescue his mother and younger sister. Shafer died trying to save Effie, after he had twice entered the burning house and had dragged out his wife and younger daughter.

## EXCHANGE SEATS DECLINE

NEW YORK, Jan. 23.—The bears are decidedly in control of quotations for Stock exchange seats. In the old days, seats were usually quoted at about \$80,000 each. But ever since it has been rumored that the exchange may be subjected to national and state legislative probing, prices have declined. Last week a seat sold for \$50,000. Today two seats sold for \$50,000, a drop of \$1,000 in a single week.

## VOTING TRUST USED AS A PROTECTION

Morgan's Partner Says the  
Method was Defense  
Against Unscrupulous Promoters

WASHINGTON, Jan. 23.—"Voting trusts" to control banks as defenses against unscrupulous Wall street promoters were praised today in the money trust inquiry by D. P. Davison, partner of J. P. Morgan & Company.

Attorney Undermyer confronted Davison with a list of the "young men" whom Davison said organized the Bankers' Trust company. Included were men 60 and 70 years of age.

"You thought you were all so young that you needed protection by a voting trust, from promoters of the street?" Undermyer asked ironically. "We felt we did," Davison replied, laughingly.

"One of them was George W. Perkins; was he the one who felt he needed protection?"

"Yes," Davison said.

## Whiskey and Pine for Colds

The increased use of whiskey for colds is causing considerable discussion among the medical fraternity. It is an almost infallible cure when mixed with certain other ingredients and taken properly. From your druggist get two ounces of Glycerine and half an ounce of Globe Pine Compound (Concentrated Pine). Take these two ingredients home and put them into a half pint of good whiskey. Shake well and take one to two teaspoonfuls after each meal and at bedtime. Smaller doses to children according to age. This treatment often knocks the worst cold or cold in a day. But be sure to get only the genuine, Globe Pine Compound (Concentrated Pine). Each half ounce bottle comes in a sealed tin screw-top case. If your druggist does not have it in stock he will quickly get it. Don't experiment with cheap uncertain mixtures. Local druggists say this has had a marvelous demand for the past six years. Published by the Globe Pharmaceutical Laboratories of Chicago.

## HE'S WELTERWEIGHT OF HIGH DEGREE

Charley Pierson.

One of the boys who must be considered seriously as a contender for the much-disputed welterweight title, is Charley Pierson, "The Fighting Newboy" of Denver. Pierson has been fighting four years and has never been knocked out. His only defeats have been at the hands of Howard Baker, the Colorado middleweight, and "Sailor Billy" Walters of Chicago. He is known as a tough, aggressive boy, one who fights rather than boxes and can assimilate all kinds of punishment.

## NEW YORK LIFE WINS POLICY CASE

Judge Higbee Rules that  
Mills Tourtellotte Is  
Not Entitled to  
Recover

That the plaintiff is not entitled to recover was the decision of Judge E. C. Higbee in circuit court today in the case of Mills Tourtellotte against the New York Life Insurance company in which Mr. Tourtellotte alleged that according to the terms of his life insurance policy he was entitled to the sum of \$8,160 or nearly \$2,000 more than he did get at the expiration of his contract.

Attorneys Gordon, Law and Gordon, for the plaintiff, submitted to the jury a statement illustrating the option Mr. Tourtellotte held under the policy giving cash value based on the results of the Tontine policies maturing as \$3,160, while the policy guaranteed \$3,607.20 as a reserve and in addition his share of the accumulated surplus. Mr. Tourtellotte sued the company on the basis of settlement of \$8,160.

Judge Higbee submitted two questions to the jury, one whether the two papers were delivered by the defendant at the same time and the second whether it was the intention of the company that the illustration statement was a part of the contract. Notwithstanding the jury's affirmative answer to both questions, Judge Higbee ruled that the language of the contract did not contain any promise binding the company to pay the \$8,160 and declared that the defendant was not entitled to recover. McConnell and Schweizer were the attorneys for the insurance company.

## CANADA LETS MAN GO

DOMINION AUTHORITIES REFUSE TO DEPORT MAN WANTED IN U. S. FOR USING MAIL TO DEFRAUD

WINNIPEG, Man., Jan. 23.—G. A. Bonds, former director of a "night and day" bank at Memphis, Tenn., and an officer in a similar institution in Kansas City, Mo., who is wanted in Memphis, where he was sentenced to the penitentiary for using the mails to defraud, today was ordered released from custody by the immigration department at Ottawa. Federal authorities from the United States had asked that Bonds be deported that he might be returned to Memphis to serve his sentence.

The immigration department held that there was no valid reason why Bonds should be detained despite the contention of the United States authorities that he was a felon in his own country.

The consul-general here has filed formal protest against Bonds's release.

The act for which Bonds was convicted at Memphis is not extraditable, deportation being the only means by which he could be returned to Memphis.

## FRIEDMAN TO MAKE HIS REMEDY PUBLIC

German Scientist to Lay  
Bare Secret After Finding He Was Tricked  
by Other Savants

BERLIN, Jan. 23.—As a result of the trick by which rival scientists in Germany secured cultures of Prof. Friedrich Friedman's tuberculosis cure, the discoverer of the alleged cure today made public his determination to turn over his culture to the imperial health authorities.

Brother scientists, it became known yesterday, had secured samples of the Friedman serum by extracting cultures from the arms of patients who had been inoculated. When Dr. Friedman learned they were experimenting with the serum he decided to lay bare the secret of the cure. The imperial tests will give scientists their first chance of thoroughly testing the treatment.

It is said that Professor Friedman plans to bring cultures of his serum to the United States personally.

Dr. Friedman today declared that the serum with which rival scientists were experimenting was an earlier preparation that he had found harmful, and not the one with which he is now getting good results.

## WIFE ALLEGES CRUELTY

MINNEAPOLIS, Jan. 23.—Tales of cruelty that would rival the customs of ancient barbarians were told today by Mrs. Helen Szabasko, 22, in a divorce suit filed against John Szabasko, 26. ## PLAN TO AID FAIR

MADISON, Wis., Jan. 23.—Several important bills to promote the development of the Wisconsin state fair will be introduced in the legislature this week by Assemblyman Charles H. Everett of Racine, who has been a member of the state board of agriculture for a number of years. Four years ago the legislature appropriated \$20,000 to purchase the Flemming tract of lands in Milwaukee. There immediately arose a controversy over the subject and the money has been lying idle in the state treasury. Assemblyman Everett will introduce a bill to provide that this fund now be used to erect a new poultry building on the state fair grounds.

## The Formation of Clouds.

Clouds are simply a form of water made visible by the cooling of the air which previously held the water in the form of invisible vapor. Every cloud may be regarded as the top of an invisible warm column or current of air. The comparative altitude of a cloud may be judged when there is no time or opportunity to make exact measurements from its form and outline, its shape or shadow, its apparent size and movement, its perspective effect and the length of time it remains directly illuminated after sunset. By the last method some clouds have been estimated to have been at least ten miles above the surface of the earth.

### Chicago Grain Review

CHICAGO, Jan. 23.—Rain over the wheat belt, large northwest receipts and unfavorable cables gave strength to a bear movement that started at the opening of trade in the grain market and prices broke sharply.

Wheat dropped ¼c after a firm opening, despite the later strength reported from the Liverpool board.

Corn opened down ¼c for May and down ¾c for July, but recovered, May options holding firm and July going up ¼c.

Oats opened firm, but later declined ¼c. Further raids by the bears was checked by a number of orders to buy at 34c.

Provisions was light and at a slightly lower level. Large sales by commission houses were responsible for the decline.

### BAKER CONFIDENT OF STICK ABILITY

Makes Wager that He Will Knock Home Run Off Tesreau in World's Series

NEW YORK, Jan. 23.—That chap J. Franklin Baker, who doubtless made himself popular in Trappe, Md., and Philadelphia, Pa., by taking an underhand advantage of C. Mathewson and R. Marquard, two of New York's most eminent citizens, during the month of October, 1911, has the brazen effrontery to declare that he will deal out the same treatment to J. Tesreau in the event of the Athletics and the Giants being the contenders for the world's championship next fall.

It will be recalled that Baker, who appears to be gifted with a species of low cunning, made home run drives off Mathewson and Marquard in 1911, and at a time when no one expected him to do anything of the sort.

Baker ambled up to the plate on two occasions when it looked as if the Giants had the contests all sewed up and ready to have the basting threads removed, and larruped the leather over the right field moat.

Mr. Baker doubtless thought this was a most amusing little trick, but New Yorkers fail to appreciate his coarse sense of humor. He and his friends laughed consumedly at the time, and they have been snickering ever since.

Not content with this exhibition of levity, Baker took occasion to taunt a rotund person named Robinson whom he met in Maryland. Baker declared that if the Athletics and Giants should clash again in the world's pennant, the men from Philadelphia would be victorious again. Robbie was plainly wroth, and with a show of much heat, wagered a box of the best cigars that could be found in Baltimore that the Baker person would not dent Tesreau's delivery for a home run in a world's series contest. With an irritating smile, Baker accepted the wager, and also another box of cigars that the Athletics could win if they played the Giants.

### NEW SHERIFF WILL ENFORCE FIGHT LAW

MILWAUKEE, Wis., Jan. 23.—Lawrence McGreal, the new sheriff of Milwaukee county today notified boxing promoters that there were boxing laws in the state of Wisconsin and that he intended to see that they were enforced.

In letters to local fight clubs here, McGreal quoted the statutes and declared that while thus far all the laws had been observed by promoters, care should be exercised to see that over-enthusiasm did not lead to violations.

"We won't violate a single law," said one promoter to McGreal. "I know you won't but don't!" replied the sheriff.

### SHOT BY BULLET IN COAL BUCKET

### BASEBALL MEN TO GIVE A BANQUET

ST. PAUL, Minn., Jan. 23.—Lawrence C. Hodgson, known in the newspaper field as "Larry Ho," will preside as toastmaster at the complimentary banquet to be tendered Bill Friel and Hay Meehan, manager and secretary of the St. Paul baseball team, at the Ryan hotel, Saturday evening, February 1.

The committee in charge, of which John B. McCormack is "umpire" has been working on some original stunts for the occasion.

The fact that the banquet will cost \$10 a plate is sufficient to indicate that it will be one of the most elaborate of its kind ever held.

Admission will be by invitation only, and not more than fifty guests are expected, all of whom will be personal friends of the two honored guests.

### M'GOORTY PLAYS WITH DETROIT LAD

NEW YORK, Jan. 23.—Fight fans agreed today that Eddie McGoorty of Oshkosh, Wis., the leading candidate for middleweight championship honors, prove too clever for Freddie Sykes of Detroit, at the Fairmont Athletic club last evening in a bout that went the full distance. It was one of the slowest bouts that McGoorty has shown in this city. Sykes seemed afraid in the first rounds, and later when he tried to drive his punches to McGoorty's stomach the latter held the Detroit lad off effectively with straight left jabs. Both men weighed in at 163 pounds.

### VARSITY MEN WILL PLAY NORMAL FIVE

A stellar exhibition of basketball is being guaranteed the fans of this city Friday night when the Wisconsin Cardinals will meet the La Crosse normal squad. The Cardinals are composed of University of Wisconsin men who have played on the varsity teams during the past season but who are not at present actively engaged in the sport at Madison. Such men as Eddie Gillette, who cut a big swath in football last fall as all-western quarterback, will hold down a forward position. Ralph Bradish and Carl Neprud, two local boys, who are well known in athletic circles, will also play, as well as Curtis and Drew, former varsity stars. Coach Carter of the normal says his men will give a good account of themselves and hope to "windup" on the part of their opponents.
